YOU SHOULD NEVER
AND EVER EAT PICKLES
because pickles are wired
. Do you want slimy
fingers?

Firstly pickles are slimy that they will get on your delicious food. And when your fingers are slimy it will touch everything. Pickles are slimy so they will make you slimy.

Secondly they have a weird taste they might make your breath stink. You will probably feel sick and pickles taste like soggy chips.

YOU SHOULD NEVER EAT A PICKLE. PICKLES MUST BE BANNED FROM ALL STORES AND FAST FOOD.

PLEASE BELIEVE ME!!! Pickles are smelly and their smell will make you faint in 1 second. You should be dead right now if you eat pickles!! In fact I don't think people will like it.

All I will say is.....

NEVER EVER IN YOUR LIFE FOR EVER
EAT A PICKLE!!!! It's simple.

AMD I mean never - slimy, taste and
smell really do you really want all that
horrible stuff?
