

A wooden bowl filled with dates is the central focus of the image. The bowl is light-colored and sits on a rustic wooden surface. The dates are dark brown and some are cut open, revealing their soft, reddish-brown flesh. The background is a blurred wooden surface.

I Will never not
ever eat a date

By Georgia

**I will never eat a date because they are discussing
And is sticky Do you want your mouth to be stuck
together?**

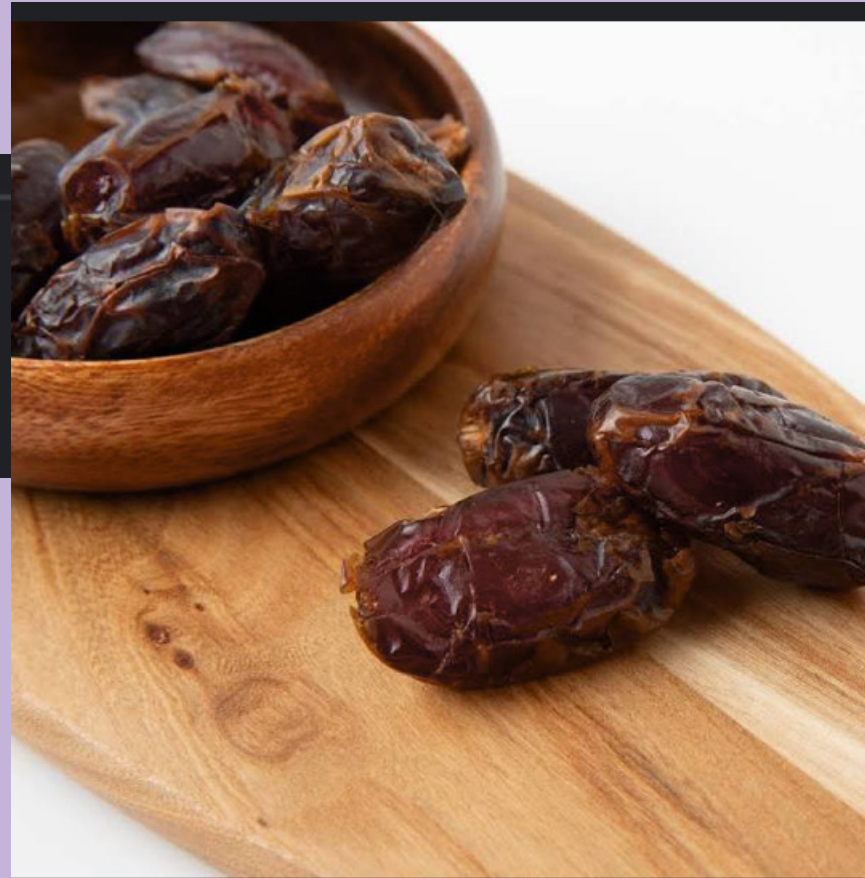

Evidence suggests Dates are sticky do you want your mouth to be stuck together ?because It will be stuck together.and when your mouth detaches it will hurt forever do you really want a sore mouth ?

Most people would agree that Dates go rotten very easily because of their weak layer .every time you eat a date do you really want it to be rotten and have food poisoning?

It is clear that Dates are expensive because 1kg of dates is \$43.00 .do you want to be poor ? There Is multiple different choices surely there is a better fruit than a date

\$43.00

So in conclusion a date is horribly
discussing they should be banned
from the local community's
