

1:1 BYO iPads – Information and Purchasing For Years 4 – 6 in 2019

Our recommended iPad is the current 6th gen 9.7” iPad that is simply called ‘iPad’. There are two different storage options, both of which are suitable. This is the Wi-Fi version.

Official Apple iPad Information: www.apple.com/au/ipad-9.7/

32GB iPad 9.7” (6th gen) retail price: \$469 (as of 1/11/2018)

128GB iPad 9.7” (6th gen) retail price: \$599 (as of 1/11/2018)

The school only uses Wi-Fi versions of iPads. If students bring 3G versions of the iPad to school, they are not allowed to have a SIM card installed for safety and security reasons. Please ensure each iPad to be in a drop-proof case. Keyboards are not required.

Students are able to bring new or currently owned iPads, from iPad Air and newer. They can also bring any of the iPad Mini or Pro range if you currently own one, though we don’t recommend purchasing a new one for the BYOi program.

North Kalgoorlie Primary School does not endorse any particular store to purchase them from if you are purchasing a new iPad, which are available locally and online. We have registered with Apple as a BYO iPad school, which means that special pricing is available from Apple at their Perth stores by mentioning the school, by calling Apple on 131-622 or through a special link that will be on our website once Apple has it available.

Local suppliers: Retravision, Harvey Norman and Target.

We have also organised access to a BYO iPad purchasing portal through an education iPad supplier who is offering a discounted price. To access this portal, enter the following website and then choose BYOD Portal Login. The school code of **Northkal** can then be entered to access the pricing and store.

BYOi Portal Website: www.solutionsit.com.au/byod-portal/

We encourage parents consider taking out cover or including the iPad in their insurance where possible as the iPad is brought to school at your own risk.

If you have any queries, please contact the school on 9091-3033.

Regards,

Ruth Culver
